## Make Your Williamsburg Wedding Transportation Wish List!

The guests are in place, your attendants are waiting, there is music, flowers, and...where's the bride? How have you pictured your arrival on your most special of days? Dramatic? Understated? Traditional? Fun loving and lighthearted? No matter how you decide to make your entrance, there are many types of transportation vendors who will be more than happy to help you make memories!

**Traditional:** The most traditional types of wedding transportation is the limousine. Perfect for transporting the bride, groom and the entire wedding party, you can choose what level of formality, style, and cost you prefer. You can consider traditional stretch limousines, the newest SUV vehicles, classic cars and super-stretch limousines that can hold up to 14 people... the latest SUV models can accommodate up to 22! Now, THAT is making an entrance!

**Fairytale:** For a real-life Cinderella experience, consider a horse-drawn carriage. Appearing in an elegant white chariot for your Williamsburg wedding pulled by stunning horses sets the tone for a storybook wedding day. There are several types of carriages you can choose from...velvet-lined Cinderella-style with appropriately dressed coachmen and footmen, or a traditional Landau carriage, a simple four-wheeled open carriage.

**Dramatic:** Think about making your entrance in a big way, maybe a vintage Rolls Royce? How about on the back of a beautiful white steed, or sitting in a canoe to make the trip from the shore to your ceremony? Arriving by air is nothing if not dramatic, although it may be just a bit over the top when it comes to expense. The ultimate: arriving in a field near your church or ceremony site in a small plane, helicopter, or hot air balloon!

The only limit to the choices for wedding transportation is your imagination! Remember...no matter what type of transportation you choose for your Williamsburg wedding, the most important part? Getting to the church on time!
